HOLY WELLS

Alsia Well	-5.644559	50.069178	Holy Well. SW393251. 50.068733N 5.644518W. http://www.megalithic.co.uk/article.php?x=139300&y=025100 http://www.themodernantiquarian.com/site/3743/alsia_holy_well.html Holy well. SW 3768 3472. 50.154363N 5.6737163W. There was once a chapel here and until fairly recently the well was in a good state of preservation, but it is now dry and the protective cairn of stones which once surrounded the well and the steps that led down to the water are completely ruinous and overgrown. A pipe is still visible from which the water presumably once flowed. The nearby activities of the Geevor Tin Mine are believed to have led to the drying up of the water supply. Villagers still recall when the well was used to cure eye complaints. It was also famed for its leeches. Today it is untended and unvisited, its rather pathetic condition heightened by the continual noise from the nearby tin processing plant. (From: http://people.bath.ac.uk/liskmj/living-spring/sourcearchive/fs3/fs3lh1.htm)
